

SUPPLEMENTAL EQUITY & PERFORMANCE AGREEMENT

PulseDNA, Inc.

This Amendment No. 1 ("Amendment") is entered into as of February 17th, 2026, by and between:

PulseDNA, Inc. ("Company")
and
Yonggen Jin (Eugene Jin) ("CTO")

This Amendment supplements and modifies the Founder–CTO Agreement dated January 19, 2026 ("Original Agreement"). All terms of the Original Agreement remain in full force except as expressly modified herein.

1. ADDITIONAL PERFORMANCE-BASED EQUITY (UP TO 24%)

In addition to the fifteen percent (15%) milestone-based equity described in Section 4 of the Original Agreement, the CTO shall be eligible to earn up to an additional nine percent (9%) of fully diluted common equity, bringing total potential equity eligibility to twenty-four percent (24%), subject strictly to the conditions below.

No additional equity vests automatically.

All equity remains milestone-based and performance-contingent.

2. CONDITIONS FOR ADDITIONAL EQUITY ELIGIBILITY

The additional 9% equity eligibility shall be earned only if all of the following are satisfied:

A. Phase 1 Infrastructure Metrics Achieved

Company-defined Phase 1 infrastructure metrics are achieved, including but not limited to:

- Fully operational sandbox environment
- Hardware-aware deployment benchmarks
- Demonstrated performance improvements
- Reproducible infrastructure builds

Metrics shall be defined in writing and approved by the Founder & CEO.

B. Full Source Code Contribution & Repository Compliance

CTO must:

- Contribute all source code to Company-approved repositories
- Maintain version control in shared systems
- Provide full documentation and reproducible builds
- Maintain shared administrative access at all times
- Avoid restricting, locking, or isolating Company access

Failure to maintain shared control pauses vesting immediately.

C. Weekly Technical Collaboration Requirement

CTO must:

- Participate in weekly technical touchbase calls with Founder & CEO
- Provide live explanation of product architecture and build pipelines
- Transparently disclose progress, blockers, and deployment status
- Maintain collaborative development cadence

Failure to maintain consistent technical collaboration may suspend vesting.

3. ADDITIONAL INFRASTRUCTURE MILESTONES (2027)

The following milestone clarifications are added to Section 4.3 of the Original Agreement:

Milestone 4 – Hardware Colocation Center #2

Equity: 5%

Requirement: Delivery, deployment, and documented operational readiness of second hardware colocation environment.

Equity: 4%

Requirement: Delivery, deployment, and documented operational readiness of third hardware colocation environment.

These milestones require continued compliance with:

Section 9 – ACCESS, SECURITY, AND CONTROL

Specifically:

- Shared administrative credentials
- Fully documented deployments
- Company-controlled repository systems
- No restricted access environments

Failure to maintain compliance voids milestone eligibility.

4. EXCLUSIVE IP OWNERSHIP & NON-USE CLAUSE

All bare-metal infrastructure, model optimizations, orchestration frameworks, and derivative works developed during CTO engagement are and remain the exclusive property of PulseDNA, Inc.

CTO agrees:

- Not to reuse, license, sell, transfer, or commercialize any underlying PulseDNA technology
- Not to provide similar infrastructure to third parties
- Not to develop competing hardware-aware LLM infrastructure
- Without express prior written consent from Founder & CEO

This restriction applies during engagement and for a period of two (2) years following termination, subject to applicable law.

5. CONDITIONAL NATURE OF TOTAL 24% EQUITY

Total equity eligibility up to 24% is contingent upon:

- Full compliance with Original Agreement

- Completion of all milestones
- Ongoing collaboration and transparency
- No material breach of access or IP terms

Equity may be suspended or revoked for material breach.

6. CONTINUED EFFECT

All other provisions of the Original Founder–CTO Agreement remain unchanged.

This Amendment is binding only upon written execution by both parties.
